

Snotel Site:	SASSE RIDGE		
State:	Washington		
Site Number:	734		
County:	Kittitas		
Lat:	47 deg	23 min	N
Long:	121 deg	4 min	W
Elevation:	4340 feet		
Date:	9/8/2015		
By:	Nathaniel P. Wilkerson		

Number of Data Years: 31
 Max. SWE Recorded: 67.3 in. of H₂O
 Max. SWE Year: 1997

Mean (\bar{x}): 1.5182
 Standard Deviation (S): 0.1491
 Skew (G): -0.7208

K_p: 1.651
 $\log(Q) = \bar{x} + K_p S$: 1.7644
 SWE (MRI 50 YR): 58.1 in. of H₂O

SWE adj. (MRI 50 YR): 73.7 in. of H₂O

Water Year	Annual Max. SWE	X = log(MAX)	(X- \bar{x}) ²	(X- \bar{x}) ³

Note: For most stations the 50 yr. MRI seems realistic. However, for a few stations if this value greatly exceeds the max. value recorded then a adjusted value is calculated. This value varies linearly between 100% of the max. for stations with 50 years or more of data and 120% of max. for stations with 10 years of data. The lesser of the two values is input into the database and map.
